

## Level 2 Implementation Checklist for a Classroom Setting

Read It Once Again curriculum units are designed to be used by various early childhood professionals such as teachers for preschool children with special needs, early interventionists, speech and language pathologists, pre-kindergarten teachers, and child care providers. The Level 2 curriculum has the flexibility to be successful in a variety of different teaching situations that do not always include a structured classroom setting.

If you intend to use this curriculum in the classroom setting, our research study determined that there are certain activities found within each curriculum unit that should be repeated as indicated in order for the curriculum to have maximum success. This checklist is especially important for teachers of young children who are at risk or those with cognitive or language delays.

Activity Description	Monday	Tuesday	Wednesday	Thursday	Friday
Send parent letter to introduce unit (once at the beginning of the unit)					
Add story props to dramatic corner (change, rotate or add) As appropriate
